Summary

Programming graduate and Applied Computer Science student with a specialization in the .NET ecosystem. During my internship at Vanden Broele, I gained hands-on experience with .NET 9 and OpenSearch, implementing high-performance search systems and multi-tenant architectures. I am a proactive self-learner, currently mastering React to build an interactive e-portfolio.

Education

Howest University of Applied Sciences
Applied Computer Science

Abridged Bachelor
Bruges, Belgium • Sep 2025 — Sep 2027

A specialized two-year bachelor's program focusing on advanced software engineering, system architecture, and industry-standard development practices.

Howest University of Applied Sciences
Programming

Associate Degree • Magna Cum Laude
Bruges, Belgium • Sep 2023 — Jun 2025

Comprehensive training in C# application development, full-stack web technologies (HTML/CSS/JS), SQL databases, Docker, and Agile workflows (Git/Scrum).

https://www.howest.be/en/

Experience

Vanden Broele
Software Development Intern

Bruges, Belgium
Mar 2025 — May 2025

- Designed a high-performance document search system using **OpenSearch**, successfully replacing legacy SQL-based queries to improve search speed and scalability.
- Implemented a secure multi-tenant architecture and real-time dashboards with anomaly detection.
- **Tech Stack:** .NET 9, Vue 3, Tailwind CSS, Docker, OpenSearch.
